

Our Lady of Grace School Study Skills Enrichment

One of the enrichment activities after school hours is Study Skills. Mrs. Karla Goodling, fifth grade homeroom teacher, works with fifth, sixth, seventh, and eighth grade students on different techniques to help them with note taking, organization, and studying strategies.

Mrs. Goodling teaches a strategy and then has the students work on an activity to use that strategy. The activities are completed on the lap tops or on paper.

When you meet after school one of the important things to think about is the “hungries”. Mrs. Goodling provided a snack and water for her students to enjoy during class.
